

Industrial Batten & Bulk Head

Bright, tough, and built to last—Crompton’s Industrial Battens & LED Bulk Heads are made for demanding industrial spaces. Weatherproof and energy-efficient, they shine through dust and water, delivering smooth, uniform light that lasts. Perfect for where durability meets brilliance!

Weatherproof & energy-efficient

Robust construction

Best-in-class efficacy

Glare-free illumination

SAGITTA

SAGITTA, IP20 CRCA LED Batten is a robust and energy-efficient lighting solution designed for versatile use. Made from CRCA steel, it offers durability and a modern aesthetic. Available in >100 Lm/W & >120 Lm/W, it provides uniform illumination, long lifespan, and low power as well as cost consumption.

CIS-305-20-57-SL-DP-NWH	20	6	3200
CIS-305-40-57-SL-DP-NWH	40	6	3310

* Also available in different CCT options

SHELTER ULTRA

SHELTER ULTRA, with high system efficacy 120 Lm/W, is an IP20 integrated LED Batten made of superior grade Aluminum extrusion housing to create a perfect lighting environment with surface/suspended mounting options.

CAT. REF.	WATTAGE	CASE LOT	MRP(₹)
CIS-305-20-57-HL2-DP-NWH	20	6	4000
CIS-305-40-57-HL2-DP-NWH	40	6	4130

* Also available in different CCT options

NEW

TECHLITA NEU

Techlita Neu IP65 PC Batten made with PC - PC co extrusion technology, having >120 Lm/W system efficacy, is highly recommended for corrosive atmospheres such as acid plants, battery rooms, chemical plants. It's surface and suspended mounting options make it versatile for multiple applications.

* Also available in different CCT options

TECHLITA

With 130 Lm/W efficacy IP65 PC - PC co-extrusion, superior product design and multi-functional applications, Crompton’s Techlita is positioned to cater to the lighting requirements of multiple industries. Striving for maximum energy savings & robust product performance, it is highly recommended for corrosive atmospheres such as acid plants, battery rooms, chemical plants.
