

TECHNICAL DATA SHEET (TDS)

Crompton 150W LED High Bay Light

Parameter	Specification
Product Name	Crompton 150W LED High Bay Light
Model	CIP-333-150-57-60D-HL4-GL-NGG
Wattage	150W
Light Source	LED
Lighting Color	Cool White
Color Temperature (CCT)	5700K
Application	Industrial & Commercial Lighting
Housing Material	Metal Body
Beam Angle	60°
Input Voltage	140V–270V AC, 50Hz
Surge Protection	4 kV
Warranty	5 Years

Product Features

- High-efficiency LED technology
- Bright Cool White illumination (5700K)
- Wide operating voltage range (140V–270V AC)
- 4kV surge protection for reliable performance
- Robust metal housing for industrial environments

- Ideal for factories, warehouses, workshops, production units, logistics centers and commercial buildings
- Long service life with low maintenance
- Energy-efficient replacement for conventional high bay lighting
